Why Ranked Choice Voting?

⚖️

Fair & Democratic

Everyone's preferences matter. No more settling for second-best choices.

👥

Group Friendly

Up to 10 participants can vote on up to 10 different options.

☆

Clear Winner

Mathematical certainty ensures the group's true preference wins.

How It Works

1

Create a session and add your choices

2

Share the session code with your group

3

Everyone ranks their preferences by using up/down arrows

4

View the winner determined by ranked choice voting
